Professional Summary

I am a full-stack web developer and software engineering student with practical experience in building dynamic, responsive web applications. Currently interning at GÜNSEL, I specialize in front-end development using React.js, TypeScript, and Tailwind CSS, while also working with backend technologies like Python (FastAPI, Django) and Node.js. My experience extends to databases (MySQL, MongoDB) and version control (GitHub, GitLab).

I thrive in collaborative environments, contributing to team success through communication and problem-solving. I am dedicated to continuously improving my skills and eager to contribute to innovative projects while learning from others.
